OUTDOOR RECREATION

COAL RIVER WATER TRAIL DRIVING TOUR

These water trails make up a total of 88 miles through the beautiful Big, Little and Coal Rivers, flowing through Boone, Lincoln, Kanawha and Raleigh Counties. They offer beginners to expert paddlers exciting paddling experiences, including fast water, ripples and flatwater, plus excellent fishing. The surrounding terrain offers mountain scenery and wildlife. The Coal River (Watershed) Group developed the trail system, which is maintained by volunteers with help from area county parks, recreation groups and the DNR.

KAYAK WATER TRAILS FOR FUN AND FISHING

The river offers serene trips through beautiful mountain passes, flowing by several small former coal camps and mountain communities. In addition to kayaking, tubing and stand-up paddle boarding, the Coal River Water Trail has become a major destination for the new breed of Kayak Anglers. Stocked annually by the DNR, fishermen will find an abundance of citation-sized small mouth bass along with a wide variety of spotted, walleye, catfish, carp, muskie, trout and more. Fishing on the Coal Rivers is one of the best kept secrets in the state.

The historic communities along the trail provide a treasure trove of activities; from coal museums and memorials to antique shops, dining and hiking. There's something for everyone to do!

Download the Ohio history app to learn more about the region's history.
